

Advanced Wound Care & Ostomy Basics **Comprehensive Wound Assessment, Hygiene, & Ostomy Care** **Product Review In-service**

Comprehensive Wound Assessment:

Will cover all of the principles that affect wound healing, management of biofilm, case studies, and end with a product review (dressings explained by their functional category differences). An opportunity for hands-on experience with wound care products on AHS formulary is included.

Ostomy Basics:

This session will take us through the basics of ostomy care, looking specifically at the pouching options available including accessory products and Problem-Solving Techniques. A review of life & wellness support programs available to anyone, as well as ostomy nurses support to healthcare providers. The last half hour will be a live ostomy product demonstration and answering attendees' questions.

Wound Hygiene:

Discussion of the further evolution of the Wound Hygiene concept focusing on how and when to implement for all tissue types of hard-to-heal wounds and applying the 4 Steps of Wound Hygiene. Examining the addition of unhealthy granulation tissue as a key indicator in the healing trajectory, and how recognition can influence effective healing results. Explanation of an implementation guide for proactive wound healing practices powered by Wound Hygiene.
